How to securely upload your photo and student ID:

In online exams with supervision through the ZOOM, we want to identify you as examinee. In order to perform a secure identification that protects your privacy in online exams, we will ask for a photocopy of your ID card and an up-to-date photo of your face.

Here are the steps to upload the necessary documents:

Please visit the following link: https://mw10.haifa.ac.il/course/view.php?id=6990

The following page will open.

If you have not yet identified yourself in Moodle, you will be asked to click on the photo identification.
And to enter your personal details to enter the system.

Then you must click on the "register/sign up" button.
Next click on update photo in system.

Now you need to add a photo of your student ID card/passport and a photo of your face. The photos will be used by the supervisor team to identify you through Zoom.

You can take a photo of the student ID/passport and yourself, together, using your phone. To do this, scan the QR code with your phone.
1. Click the photo icon to upload a JPG file.

2. Click the send icon to add your photo and your relevant ID to the system.

Once you have added the image and clicked send, you will receive the following message.

This is the end of the process and the supervision team will not ask you for further identification details.
